- Minimal Incentives for expeditious ISP removal
- Fragmented coordination
- ? need for a central cybercrime reporting agency
- Need geeks on geeks
  - ? under-reporting, will not store evidence, loss of integrity of digital forensics, fear of prosecution, no exemption from criminal law, the wrong kind of cyber-activism

**YOU NEED SECURITY EXPERTS ACTIVE IN THIS FIELD !!!!!**

# Research Projects

**Please contact myself, Alana Maurushat,  
or David Vaile if you are interested in  
partnering for further research into:**

- 1) Internet Filtering / Censorship
- 2) Effective Combating of Child Pornography
